Hiring the Hub - FAQs

What are the dimensions of the studio?

The studio is 6.1m wide and 8.70m long. It consists of a main area with a mirrored wall and a small offset area at the back with a sink, cupboards and worktop.

Are we allowed a bouncy castle?

In the studio there is only room for a mini bouncy castle for younger children. The outside areas have more room, but if you're not using Apex as your supplier, you'll need to check it's OK with Dacorum Borough Council first and ensure that the operator has in-date public liability insurance and provide us with a copy of this. You'll also need to consider how any electric power required is generated and, if this is from the Hub, then all electrical cables must be protected.

Can we use the outside grass areas?

Yes but on a non-exclusive basis as they are open to the general public at all times.

Is there a kitchen and what equipment is available?

Within the studio there is a small area at the back with a sink, worktop and cupboards. There is no available fridge, microwave, kettle, cutlery, plates or cups.

What equipment is available for us to hire/use FOC?

There are two Tennis Tables available for hire at £5 each per hour.

Is there an internet connection/wifi?

Yes.

How do we gain access?

There will be someone from Apex 360 Ltd on site for the duration of your booking.

We've got a vehicle that won't go under the height restriction - what do we do?

Don't worry, we have keys - just let us know in advance so we can make sure we're on site to open it for you.

What about cleaning up after our hire?

You need to make sure that you leave the premises and surroundings in a clean and tidy condition and ensure that the building (and height restriction if opened) is properly closed, locked and secured. Any equipment removed from their usual positions should also be properly replaced. Any rubbish your session has generated needs to be removed and bins emptied where necessary.

May I view the studio prior to booking?

Of course, give us a call on 01442 800 242 and we can sort a convenient time between bookings.
